New Quotatoes: Joycean Exogenesis in the Digital Age (European Joyce Studies)
"New Quotatoes, Joycean Exogenesis in the Digital Age" offers fourteen original essays on the genetic dossiers of Joyce s fiction and the ties that bind the literary archive to the transatlantic print sphere of the late nineteenth and early twentieth century. Availing of digital media and tools, online resources, and new forms of access, the contributions delve deeper than ever before into Joyce s programmatic reading for his oeuvre, and they posit connections and textual relations with major and minor literary figures alike never before established. The essays employ a broad range of genetic methodologies from traditional approaches to intertextuality and allusion to computational methods that plumb Large-scale Digitisation Initiatives like Google Books to the possibilities of databasing for Joyce studies. Contributors: Scarlett Baron, Tim Conley, Luca Crispi, Ronan Crowley, Sarah Davison, Tom De Keyser, Daniel Ferrer, Finn Fordham, Robbert-Jan Henkes, John Simpson, Sam Slote, Dirk Van Hulle, Chrissie Van Mierlo, and Wim Van Mierlo."
