LIFE LOVE NUMBERS: Pathway to Knowing the Real YOU Dawn Alice
Life Love Numbers has developed over a long exploration and experimentation to bring you a simple way to grasp your own personal meaning of life.
Life Love Numbers takes you on a smooth and straightforward journey of self-discovery. You will be able to have greater scope in your life.
Life Love Numbers is an effortless guide for learning numerology and understanding how numbers play a role in your daily life.
Dawn Alice uses uncomplicated language for the everyday person to follow. The emphasis is on YOU the reader, hence the sub-title, ‘Pathway to Knowing the Real YOU’.
Dawn Alice takes your hand in a step-by-step process through simple graphs and examples. She introduces you to accessible tools to decipher your birth-date and name.
We all have in-grained talents.
What are your abilities? Are you a sportsman, entrepreneur, psychic, nurturing parent, teacher or healer?
We all have temperaments.
Do you have the tendency to bend under pressure, have a wicket sense of humour or a cranky disposition and lack patience? Relationships, career, finances and family situations can take on a new perspective when you have the advantage of distinguishing possible flaws and finer-points through your personal numbers.
Sceptics can be thanked for questioning the truth and soundness of forward thinking, and it is no different with numerology. How can numbers influence a person’s life? The answer to this question will be revealed once you follow through on your personal calculations in this book. Decide for yourself.
There are many numerology systems and conflicting opinions about assigning number values to the alphabet. Interpretations vary throughout different traditions and cultures. The most famous ground breaker was Pythagoras, who opened the doorway to taking mere numbers to a whole new level. It would be absurd to say that, without exception, the same birth date or name would have an identical personality or life path. The purpose of this book is not to make this claim. We are all individual with unique blueprints, after all.
