The Toy and the Tide Pool (Stuffed Bunny Science Adventure Series) Gillian King-Cargile
In the second book in the Stuffed Bunny Science Adventure Series, a fluff-brained bunny named Bear gets lost at the beach. He befriends Princess Shelleena, a mermaid doll, who helps him learn about tides and the fascinating creatures who call tide pools their home. But can Bear's new friend help him find a way to signal for help before the high tide sweeps him out to sea? This silly, salty adventure introduces young readers to interesting ocean animals and helps them understand concepts of biodiversity and earth system science. It concludes with an interview with a marine biologist from Chicago's world-renowned Shedd Aquarium.

About the Stuffed Bunny Science Adventure Series
NIU Press is pleased to work with the P-20 Center at Northern Illinois University to publish a series of STEM-based storybooks for young readers.

The P-20 Center collaborates with university and community partners to promote innovation in teaching and learning, and foster educational success for all ages.

The Stuffed Bunny Science Adventure Series for young readers is an extension of STEM Read, a P-20 program that helps readers explore the science, technology, engineering, and math concepts behind popular fiction.

This series shares the adventures of a fluff-brained bunny named Bear and his favorite boy, Jack. In each story, Bear meets other toys who teach him about the world around him. The books explore the importance of working together and making friends. They also incorporate STEM concepts aligned with the Next Generation Science Standards. Learn more about the Stuffed Bunny Science Adventure Series and find resources, videos, and games at stemread.com.
