The Eyes of Little Birds: The First Nick Wolfe Sci Fi Adventure (Nick Wolfe Sci Fi Adventures) (Volume 1) Ross H. Henderson
How do you fight an enemy who sees through your eyes? A man given nanotech vision begins to suspect his new eyes are doing more than seeing for him. Blinded in a fire, Tom Vincent is granted renewed vision through an experimental procedure using nanotechnology. Created by the medical research team at BioMek Horizons, Tom’s new eyes are made up of two tiny “armies” that combine to transmit crystal clear images to his brain, and can react and rebuild themselves when attacked. The eyes are a stunning success, until Vincent notices people around him are dying suddenly—and violently. Suspicion looms like a malignant shadow over his bright future. Is he being used as a weapon? The only man who may be able to help is former mercenary Nick Wolfe, an old friend and previous employee of BioMek. But can the two men get to the truth before Tom kills again? And even then, is he fated to end up in darkness?
