There are many books in which EMS is used merely as a backdrop but Blue Star is about the job itself as it really is. But it is not just a collection of "war stories". In scenes inspired by actual events the author weaves a compelling and deeply symbolic tale of a veteran paramedic whose world is shattered when he is wounded and his partner killed by a shooter during a call gone horribly wrong and his passioate affair with the woman as a doctor clashes with him professionally but whose love helps him in his struggle to come to terms with the brutal reality of one of the most exciting and dangerous professions in the world
