Cause and Effect

Christopher Francis

Cause and Effect Christopher Francis
Two years after a botched hostage rescue, Raijin and Astrid – the world's only superheroes – reform their shattered partnership in order to stop the mysterious and murderous Masquerade, who threatens the life of the very same scientist they saved years prior. Things get a little more difficult when their confrontation ends with Raijin being thrown through time and space, offering him the chance to change the timeline to fix the present and stop the rise of the world’s first supervillain. Not to mention having the opportunity to alter the events of the fateful night that caused the two heroes to split. But will it be enough? Or is time travel a little more complicated than that? Cause and Effect is the second book from Christopher Francis and it offers a science-fiction superhero tale like you've never seen before. Cleverly constructed, comedic, and made with a love of comic book lore, Cause and Effect is a superpowered Groundhog Day you don't want to miss.

From reader reviews:

Anthony Pisano:

In other case, little people like to read book Cause and Effect. You can choose the best book if you'd prefer reading a book. So long as we know about how is important a new book Cause and Effect. You can add know-how and of course you can around the world by the book. Absolutely right, simply because from book you can learn everything! From your country until finally foreign or abroad you may be known. About simple thing until wonderful thing it is possible to know that. In this era, we can open a book or even searching by internet gadget. It is called e-book. You may use it when you feel bored stiff to go to the library. Let's read.

Matthew White:

The book Cause and Effect make one feel enjoy for your spare time. You can use to make your capable much more increase. Book can being your best friend when you getting pressure or having big problem using your subject. If you can make looking at a book Cause and Effect to get your habit, you can get far more advantages, like add your current capable, increase your knowledge about some or all subjects. It is possible to know everything if you like start and read a publication Cause and Effect. Kinds of book are a lot of. It means that, science e-book or encyclopedia or others. So , how do you think about this publication?

Susan Rogers:

What do you think of book? It is just for students since they're still students or that for all people in the world, the actual best subject for that? Simply you can be answered for that question above. Every person has various personality and hobby for each and every other. Don't to be pressured someone or something that they don't want do that. You must know how great in addition to important the book Cause and Effect. All type of book are you able to see on many solutions. You can look for the internet methods or other social media.

Dianne Haire:

This Cause and Effect is great publication for you because the content that is certainly full of information for you who else always deal with world and still have to make decision every minute. This book reveal it data accurately using great manage word or we can claim no rambling sentences within it. So if you are read that hurriedly you can have whole data in it. Doesn't mean it only will give you straight forward sentences but tough core information with wonderful delivering sentences. Having Cause and Effect in your hand like finding the world in your arm, data in it is not ridiculous 1. We can say that no e-book that offer you world throughout ten or fifteen small right but this e-book already do that. So , this is certainly good reading book. Hello Mr. and Mrs. hectic do you still doubt in which?
