Welcome to the Third Edition of *Waking God: The Journey Begins*. The Waking God Trilogy is not about the doom and gloom that organized religions would have you believe. It is not about an Armageddon style "end times" that pits good against evil in some final battle where religious dogma is triumphant. Yes, there is a final battle of sorts, but as Mantrella says, "It is not about saving humanity, it never has been." While the trilogy comes down hard on organized religion and its "worn out dogma," it is not atheistic. Instead, it totally rejects the idea of some schizophrenic super-being that loves to punish and reward its servants, and recognizes a Universal consciousness of which we are all a part. It acknowledges that within each of us there is a "god seed" that is waiting to experience an awakening brought on, as in any major evolution, by not only environmental, but also social, economic, and political stress that will help to create a spontaneous evolution in humanity. Or, if allowed to remain dormant, this same seed will be our undoing.

The prophecies all speak of a choice. Nostradamus, the Hopi, the Mayans, the I Ching, the Riddles of DaVinci and the Tarot speak to a time of choosing. Hidden codices, books of revelation, and ancient sacred texts also speak of this time of choosing. That time is upon us. The elements are all there. From bursts of energy from the center of our galaxy to the scientific discoveries about the true nature of our reality, the puzzle nears its completion.
