**REVEL for Psychology -- Access Card** Amy J. Marin Ph.D, Roger R. Hock Ph.D.

**A 360º digital experience that puts teaching and learning at the center**
Marin and Hock's *Psychology* engages your students in a 360º digital learning experience inside and outside the classroom so you can teach the course you've always wanted to teach. Built from the ground up as a fully digital offering in Pearson's new REVEL™ platform, *Psychology* harnesses the best available interactive, active-reading technology to put teaching and learning at the center.
¿
Mindful of the human attention span and the ways people best learn and remember, Marin and Hock make reading an active rather than a passive experience. Throughout REVEL for *Psychology*, the authors intersperse text with relevant YourTurn activities that prompt students to perform short experiments, solve problems, or otherwise engage with course material. And 360º activities allow you to extend students' YourTurn active-learning experiences inside the classroom, fostering hands-on learning during class sessions. All of these activities prolong student attention, as well as help students apply what they're learning to their own lives, which boosts understanding and retention.

Embracing the notion that learning can, and should, happen everywhere — both within and outside the classroom — REVEL for *Psychology* by Marin and Hock will let you teach your course the way you've always wanted to, and provide the 360º digital learning experience that your students have been waiting for!

**NOTE:** REVEL is a fully digital delivery of Pearson content. This ISBN is for the standalone REVEL access card. In addition to this access card, you will need a course invite link, provided by your instructor, to register for and use REVEL.
