*'Fifty years into my life journey I realise that; while I love remote wild places and the peoples I meet there, it is in forests that I find the greatest joy. Of all the forests that I have explored, it is the great circumpolar Boreal forest of the North that calls to me most. Here is a landscape where bush knowledge really counts and where experience counts even more. . . This book has been thirty years in the making.'*

*Out on the Land* is an absorbing exploration of, and tribute to, the Boreal forest of the North: its landscape, its people, their cultures and skills, the wilderness that embodies it, and its immense beauty. The book is vast in scope and covers every aspect of being in the wilderness in both winter and summer (clothing, kit, skills, cooking, survival), revealing the age-old traditions and techniques, and how to carry them out yourself. It also includes case studies of early explorers, as well as modern-day adventurers who found themselves stranded in the forest and forced to work out a way to survive.

So much more than a bushcraft manual, this book goes deeper, to the traditions and cultures that gave us these skills, as well as focusing on the detail itself. Ray and Lars's practical advice is wound around a deep love for the forest, respect and admiration for the people who live there and sheer enjoyment of the stunning scenery.
