Prometheus: The Art of the Film Mark Salisbury
Visionary filmmaker Ridley Scott returns to the genre he helped define, creating an original science fiction epic set in the most dangerous corners of the universe. The movie takes a team of scientists and explorers on a thrilling journey that will test their physical and mental limits and strand them on a distant world, where they will discover the answers to our most profound questions and to life's ultimate mystery.

With an introduction by Scott himself, this lavish book will be the only publication to accompany *Prometheus*. Stunning production art and behind the scenes photos will grant the reader a window on the process of creating this astounding new epic.
