Egypt vs. Greece and the American Academy: The Debate Over the Birth of Civilization Molefi Kete Asante, Ama Mazama
Debating the development of civilization in Egypt and Greece, this collection of essays explores European misconceptions of African history. Featuring contributions from some of the top scholars in African American studies, this book analyzes the inconsistencies erupting from academic and Eurocentric reports on ancient culture. It explores such questions as *If the pyramids were built in 2800 B.C. and Greek civilization began around 700 B.C., how could the Greeks have contributed or taught Africans math and science?* and *If the Greeks built pyramids in Egypt, why did they not build a few in Greece?*
