The Imago Sequence and Other Stories Laird Barron
To the long tradition of eldritch horror pioneered and refined by writers such as H.P. Lovecraft, Peter Straub, and Thomas Ligotti, comes Laird Barron, an author whose literary voice invokes the grotesque, the devilish, and the perverse with rare intensity and astonishing craftsmanship. Collected here for the first time are nine terrifying tales of cosmic horror, including the World Fantasy Award-nominated novella "The Imago Sequence," the International Horror Guild Award-nominated "Proboscis," and the never-before published "Procession of the Black Sloth." Together, these stories, each a masterstroke of craft and imaginative irony, form a shocking cycle of distorted evolution, encroaching chaos, and ravenous insectoid hive-minds hidden just beneath the seemingly benign surface of the Earth.

Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a *New York Times* bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.
