****** BONUS! : FREE Five Must-Have Spices For Survival Never Released Included!****

This is an introductory guide to prepping that is meant to help new preppers get started on their own survival and self-reliance. You may think of this as merely a beginning, an introduction or a first step on the prepping pathway. But, this guide also aims at dispelling some of the rumors and myths about preppers in general. Many of the myths that surround the prepper community are caused by the prepper television shows. While these are entertaining and do sometimes contain some good hints and tips, it is important to remember that these are just television programs with editing and careful selection. The producers purposely pick the people who would be deemed the most extreme or perhaps the “nuttiest” because they are the ones that make good television. The real preppers are the ones that are not doing stunts for TV. They are the ones with the right mindset and mental attitude and they are doing these things quietly for their families, not parading their choices for everyone to see. This guide is about getting back to the basics of prepping and doing the things that you can do now and then adding as you get more serious about your survival.
