Refractory Migraine: Mechanisms and Management Elliot A. Schulman FACP MD, Morris Levin MD, Alvin E. Lake III. PhD, Elizabeth Loder MPH MD
A must-have book for any health professional who treats patients with headache disorders, Refractory Migraine is written by international experts from the world's top headache centers. It describes how they approach the treatment of migraine patients who continue to suffer despite appropriate medical treatment. First, it highlights current ideas about the definition and characterization of refractory migraine, and reviews underlying causes and contributing factors. Then, individual chapters cover every important aspect of migraine treatment with the focus entirely on refractory forms of the disorder. Its many features include detailed algorithms for outpatient and inpatient withdrawal from overused medications, innovative drug therapy and nonpharmacological treatments, a list of questions to ask before deciding to try hormonal therapies, and detailed descriptions of how to recognize and interact with patients who have challenging personality disorders or concomitant psychiatric problems. We're confident you'll often turn to this book for advice about challenges in migraine management. When you do, the bulleted lists and boxes that highlight and condense the main messages of each chapter put the information you need at your fingertips.

If you treat patients with migraine, you will recognize many of the challenging situations and topics covered in this book - and you will be encouraged by the innovative and resourceful therapeutic strategies suggested by seasoned headache doctors with a wealth of clinical experience. Readable, comprehensive and up to date, this book gives you access to ingenious treatment approaches developed and refined in specialty headache clinics that regularly - and successfully - treat patients with refractory headache problems. When you meet the next migraine patient who says "I've tried it all, and nothing works", you will know where to go for practical advice about what to do next.

So , why hesitate? Let us have Refractory Migraine: Mechanisms and Management.

Regina Hash:

As a student exactly feel bored in order to reading. If their teacher requested them to go to the library or even make summary for some book, they are complained. Just very little students that has reading's spirit or real their passion. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading significantly. Any students feel that reading through is not important, boring as well as can't see colorful images on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this period, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this Refractory Migraine: Mechanisms and Management can make you truly feel more

interested to read.
